FINAL RANKING LIST

for enrolment in master's academic studies in the 2026/2027 academic year

Study Programme

Peace, Security and Development

The admissions committee — consisting of Prof. dr Aleksandar Milošević, Prof. dr Filip Ejduš, and Prof. dr Goran Tepšić — evaluated the letters of research intent as part of the entrance exam for candidates applying to the master's programme *Peace, Security and Development* in the first admission round.

The total number of points used for ranking candidates was determined as follows: the average grade from previous levels of study (up to 50 points), the duration of studies (up to 10 points), and the entrance exam (letter of research intent) worth up to 40 points.

A total of 41 candidates applied. The top five ranked students have been admitted on a state-funded (budget) basis.

After reviewing the documentation submitted by the candidates, the committee compiled the ranking list attached to this Report.
